### Top 5 tips for ID protection (:30)

As you gather your documents for this tax season, consider these five identity protection tips.

- First, never carry your Social Security card in your wallet.
- Next, never reply to unsolicited emails asking for your personal information—no matter who it's from.
- Third, keep your sensitive documents in a secure location.
- Next, don't submit sensitive information on public wifi.
- And finally, file electronically—its faster and more secure.
